

DO IT YOURSELF PERFECT COMPETITION COLOR WITH PRO TAN®

Night Before Competition

Prior to tanning: Make sure that you have no lotions, deodorants, perfumes or colognes on and that your skin is dry and has been properly exfoliated.

- 1 Gently pour Pro Tan® Overnight Competition Color Base Coat into a bowl.
- 2 Using the supplied applicator mitt, follow the self-application instructions and apply 4 oz. Pro Tan® Overnight Competition Color Base Coat to dry, exfoliated skin.
- 3 Let the tan dry for 5-10 minutes in a cool, dry environment.

✓ **Tanning Tip:** After applying your first application of Pro Tan® Overnight Competition Color Base be sure to sleep in long, dark, loose fitting cotton clothes.

Morning of Competition

- 4 Upon waking, gently rinse in warm water with no soap. Be sure as to not rinse in too hot of water as it opens up your pores, causing more color to rinse out. Pat or air dry gently. Baby wipes can be used to clean private areas if desired. Do not put on any deodorant or lotion.
- 5 Using the supplied applicator mitt, follow the self-application instructions and apply your second coat of 4 oz. Pro Tan® Overnight Competition Color Base Coat to entire body.

Backstage at Competition

- 6 Follow the self-application instructions and apply your chosen Pro Tan® Instant Top Coat 30 minutes before stepping on stage. Allow color to dry before direct contact with clothes or water. Reapply for a deeper color.
- 7 Follow the self-application instructions and apply your Hot Stuff® High Definition Optimizer Oil, Muscle Juice® Maximum Definition Competition Posing Oil, or Show Shine® Ultra-Light Competition Posing Oil to seal in the bronzer before pumping up.

✓ **Women:** Follow the self-application instructions and apply Bikini Bite® No-Slip Suit Fastener if necessary.
